

Newsletter 18 - Week 10 Term 3 2026

PRINCIPAL - Kylie Vaughan

Published by Everton Park State School

This year our focus is on:

Creating quality learning and engagement for all.

Term 3 Wrap Up

As Term 3 draws to a close, it is a wonderful time to reflect on another busy and rewarding term at Everton Park State School. Over the past ten weeks, our students, staff and families have continued to learn, grow and celebrate together.

Throughout the term, we have seen our school values of **respect**, **responsibility**, **collaboration**, **achievement** and **kindness** come to life in so many different ways. From the classroom to the playground, in our sporting and cultural events, and through our many whole-school celebrations, these values continue to shape who we are as a school community.

Here are just some of the highlights from Term 3:

We welcomed parents and carers to our Parent-Caregiver Teacher Meetings, providing an opportunity to celebrate our **achievements**, share our learning and work **collaboratively** on our next steps.

We celebrated NAIDOC Week, **respecting**, honouring and learning more about First Nations culture, history and perspectives. A special thank you to parent, Kea Laws and Isla, our First Nations Leader for their leadership and support.

Our Prep students celebrated 100 days of school, marking this wonderful **achievement** with plenty of excitement, smiles and pride.

Our Year 4 and 6 students headed off on camp, embracing new experiences, challenges and opportunities to demonstrate **responsibility**, **collaboration** and **kindness**.

Science Week sparked curiosity and excitement across the school, with engaging learning experiences and opportunities for students to explore, question and discover.

We celebrated the joy of reading and storytelling during Book Week, with students and staff embracing the theme through our much-loved Book Week celebrations and enjoying an inspiring author visit from Emily Serow.

Our Chappy Disco brought students and families together for an evening of fun, connection and community spirit.

We came together for our annual Rainbow for Ruby Day, remembering and celebrating a much loved member of our school community.

We celebrated our wonderful teacher aides, cleaners and support staff through Teacher Aide Appreciation Week, Cleaners' Week and Support Staff Recognition Week, recognising and thanking them for the invaluable contribution they make to our students and school each and every day.

We celebrated student talent and school spirit through EP's Got Talent and our ever-popular Teachers vs Students Touch Football Game, providing a wonderful way to finish the term together.

A huge thank you to our students, staff, families and wider school community for making Term 3 such a positive and memorable term. We are incredibly proud of the way our Everton Park community continues to come together and live our school values each day.

As we head into the holidays, I hope everyone enjoys a well-deserved break, takes time to rest and recharge, and enjoys some quality time with family and friends.

Wishing everyone a safe, happy and relaxing holiday break.

Miss Vaughan on Leave

I'll be taking Week 1 of Term 4 off on Long Service Leave as my family and I head off to Japan. While I'm away, Mrs Schott will be stepping into the role of Acting Principal and will be looking after things at school. My only hope is she doesn't get up to too much mischief in my absence!

Get Ready for our P&C Colour Run

On Friday, 16 October, our P&C will be hosting a whole-school Colour Run from 2–3pm on the school oval.

Students are encouraged to wear white or light-coloured clothing that they don't mind getting messy, as they'll make their way through a fun obstacle course while being showered with non-toxic colour powder by our amazing volunteers.

Consent for this event was sent out earlier this week. Please ensure you've provided permission via QParents so your child can participate in the fun.

If your child doesn't have a white or light-coloured outfit, no worries! Colour Run shirts and accessories are available to purchase in packs through Flexischools, and these will be delivered straight to your child's classroom in the days before the event (please note students should wear shorts for the event rather than their school shorts or skorts).

Students are welcome to come to school in their Colour Run clothes on the day.

The class with the most purchases via Flexischools will get to vote on a teacher to be slimed at the end of the Colour Run!

Our amazing P&C will provide sunglasses to all students on the day too!

A big shout out goes to Councillor Tracy Davis who has made a generous donation to make this event possible.

We'd love families to be part of the fun too. Come along, cheer from the sidelines, or volunteer on the oval to help with setup and throw some colour. If you'd like to be part of the action, sign up here:

www.volunteersignup.org/K3HEP

Let's make it a bright, fun-filled afternoon to remember!

Talent Quest Finals

What an incredible showcase of talent we enjoyed at our Talent Quest Finals this week!

Our incredible finalists took to the stage with confidence, courage and plenty of enthusiasm, entertaining the audience with an amazing variety of performances. From singing and dancing, to musical performances to comedy, our students certainly showed us just how much talent we have at our school.

A huge congratulations to all of our finalists for the hard work and dedication they put into preparing their performances. Performing in front of a crowd takes courage, and we are so proud of each of you.

Congratulations to our Junior Winners -

1st Esther

2nd Alecia & Edan

3rd Riley

Congratulations to our Senior Winners -

1st Cleo, Sonny, Indi and Rhys

2nd Lucy and Annie

3rd Maddy

We would also love to thank our staff, judges and families for supporting the Talent Quest and helping to make the event such a memorable experience for our students. A really big shout out to Riley Baker, Tiana Parsons and Kylie Renew in everything they did in the lead up to this event!

The Talent Quest was a wonderful celebration of student confidence, creativity and individuality. We are so proud of every student who auditioned and shared their talent with the school community. Have a look at the pictures below.

Happy Holidays

As we come to the end of another busy and rewarding term, I would like to take a moment to celebrate the wonderful achievements of our students and the incredible work of our staff. It has been a term filled with learning, growth, special events, challenges overcome and plenty of moments to be proud of.

I hope everyone enjoys a well-deserved break over the holidays. Take the time to slow down, spend time with family and friends, enjoy some sunshine and make some special memories. We look forward to welcoming everyone back next term feeling refreshed, recharged and ready for another great term of learning!

Take care and stay safe over the holidays!

Transitioning to the Next Stage of School

At Everton Park State School, we know that starting school and moving from primary school to high school are two very important milestones in a child's education. Both transitions can bring excitement, anticipation and, sometimes, a few worries. Our goal is to make these changes as positive, familiar and successful as possible for every child and family. To ensure this, we have begun the planning process.

Starting Prep

Transition to Prep is much more than simply visiting the school before the first day. It is a process that begins well before children start school and continues as children and families develop a sense of belonging within their new school community.

Throughout the year, we work closely with families, kindergartens and early childhood educators to help children become familiar with school. This includes:

- opportunities to visit and explore our school environment through playgroup and special events.
- becoming familiar with classrooms, playgrounds and school routines
- sharing information about children's strengths, interests, learning and support needs
- communicating with kindergarten and early childhood educators
- becoming familiar with classrooms through transitions days in term 4
- working with families and external professionals where additional support is required

Queensland kindergarten transition statements can also provide valuable information about a child's learning, development, strengths and interests. With family consent, this information can be shared with the school to help us plan a positive and individualised transition into Prep.

Families are an important part of this process. Talking positively about starting school, attending transition activities, sharing information about your child and helping them become familiar with new routines can all help build confidence.

Moving from Year 6 to Year 7

The transition from primary school to high school is another significant milestone. Students are moving from being the oldest students in our school to becoming the youngest students in a new environment, with new teachers, classrooms, routines and expectations.

Our Year 6 transition process focuses on helping students develop the confidence, independence and organisational skills they will need for secondary school.

As part of this process, students will have opportunities to:

- visit the high school and become familiar with the environment
- meet secondary school staff and students at interviews and transition days
- participate in orientation or transition activities
- learn about high school routines, subjects and expectations through high school information nights and open days
- discuss any questions or concerns they may have about the move
- share relevant information with their new school to support continuity of learning and wellbeing.

Primary and secondary schools work together to support students through this transition, and information about a student's learning, achievement and support needs can assist the receiving school in planning for a successful start to Year 7. Ms Winsome Rosier, the Inclusion Teacher for year 5 and 6 will facilitate additional visitations with identified families and schools.

Transition is a partnership

Whether your child is preparing to start Prep or getting ready to leave us for high school, **successful transition is a shared responsibility**. Students, families, teachers, support staff, early childhood educators and secondary schools all have an important role to play.

For some children, a few visits and conversations may be all that is needed. For others, particularly students who require additional adjustments or support, transition may involve more detailed planning, multiple visits, individualised resources and collaboration between schools, families and external professionals.

At Everton Park State School, we are committed to knowing our students well and ensuring that important information is shared appropriately so that each child can begin their next chapter feeling **known, supported and ready to learn**.

A new beginning

Transitions are not just about leaving one classroom and entering another. They are about building confidence, developing independence and helping children feel that they belong in their new environment.

We look forward to working alongside our Prep families and our Year 6 families to make these important transitions positive experiences for every student.

If you have questions or concerns about your child's transition, please speak with your child's classroom teacher or contact the Inclusion Team. We are here to help.

Head of Special of Education Services

HEAD OF DEPARTMENT - CURRICULUM - Kira Balaam

Published by Everton Park State School

Working Together to Support Every Student

Behind every assessment result is a careful process to ensure each child's work is assessed fairly and consistently. This week, teachers from every year level came together to moderate samples of student work from Term 3.

During moderation, teachers share examples of student work, compare them with the Australian Curriculum achievement standards and discuss the evidence students have demonstrated. These professional conversations help teachers develop a shared understanding of what achievement looks like across different classes and year levels.

Working together in this way gives us confidence that our assessment decisions are consistent and well supported. It also helps teachers celebrate students' progress, identify areas for further development and plan the next steps in their learning.

Keep the Pages Turning These Holidays

School holidays are an important time for children to rest, play and enjoy time with family. Making a little time for reading can also help children maintain their fluency, expand their vocabulary and return to school feeling confident and ready to learn. Reading also encourages curiosity, imagination and a lifelong love of learning.

Holiday reading does not need to feel like schoolwork. Children might enjoy a novel, comic, magazine, recipe, audiobook or a visit to the local library. Letting children choose what they read helps keep the experience enjoyable. Even a few minutes of shared or independent reading each day can help keep those reading habits strong while creating some special, quiet moments together.

Belonging & Engagement Coach - Beth Price

Published by Everton Park State School

Building Belonging Through Proactive Support

At Everton Park State School, we want every student and staff member to feel safe, supported and that they belong. Our school values guide us in creating this environment. We show respect in the way we interact with others, care and kindness when someone needs support, and responsibility by understanding that our choices affect ourselves and those around us.

Belonging also comes from knowing that the adults around you understand and respect where you are on your learning journey. Every student has different strengths and needs. When students feel understood and know that support is available when they need it, they are more likely to engage in their learning, participate and experience success.

This term, we have continued to strengthen the supports available for students' learning and social-emotional development. During this time, we have seen a 49% reduction in physical behaviour incidents. This is a really positive result for the safety of our students and staff and reflects the progress we are seeing across the school.

The Nest has been an important part of this work. It is a structured space where students can develop and practise their regulation skills. When students arrive, they set a timer and identify whether they need to “power up” or “power down” to get their brain and body ready for their next learning task. The staff member on duty helps them choose and use appropriate tools and strategies before they return to class. The aim is for students to become more confident in recognising what is happening for them, what they need and which strategies can help.

In line with our Choice Theory work, when students access The Nest, they are supported to unpack the four parts of Total Behaviour: acting, thinking, feeling and physiology. Staff guide students to notice what they are doing, what they are thinking, how they are feeling and what is happening in their body. This helps students make sense of what they are experiencing, identify whether they need to power up or power down, and choose strategies that will support them to regulate and return to learning.

We have also been working with staff and students to understand the function of behaviour. Instead of looking only at what a student is doing, we consider why the behaviour might be happening and what the student might need at that point. From there, we can work together to identify a skill, strategy or support that may help.

Our teacher aides play an important role in providing proactive support across the school. This includes targeted support with learning, regulation support and morning check-ins with trusted adults. For some students, knowing that a familiar adult will check in with them at the beginning of the day or be available at particular times provides an important sense of predictability and connection. Teacher aide support is targeted to where it can have the greatest impact, helping students feel supported, access their learning and experience success throughout the school day.

The reduction in physical behaviour incidents is something we are very pleased to see, but reducing incidents is only part of what we are working towards. We want students to develop the skills to understand themselves, manage challenges, solve problems and ask for help when they need it. We will continue building on this work next term, with the aim of making Everton Park State School a place where our students and staff feel safe, understood, supported and that they belong.

Cheerleading news

Published by Everton Park State School

Cheerleading Auditions for 2027 teams

Term 4 –

Week 10 of Term 3 – will be the final rehearsal for Cheer Pups (Reserves), as 2027 auditions begin in Term 4.

Auditions – Term Four is a VERY busy time for Cheerleading. The Squad are heading into competition season and it is time to start preparing for the 2027 cheer season. This means that during Term Four, I will be holding Cheerleading tryouts for both the 2027 Cheer Squad teams.

Does your child want to be in the Cheer Squad/Reserves next year? We will be auditioning on a Monday morning. **This year ONLY those wishing to audition for the competing Cheer Squad need to attend the morning auditions.** If your child wants to do the Monday morning Pup Reserves next year, then they DO NOT need to audition – everyone will have a spot in the Pups team. Once auditions are completed, there will be NO more Monday morning Cheer sessions for the year.

Students from Prep to Year 5 are invited to try out. Auditions will be held on a Monday morning at 7.45am – in Term 4 – Weeks 2,3,4,5 (12, 19, 26 October and 2 November). Each week, there will be different skills assessed, so you need to attend all four audition sessions.

Cheer Auditions are open to everyone in the school – you DO NOT HAVE to be part of our current Cheer program to audition. The teams will be announced in Week 10 of Term 4. Email Miss Rogers at kroge8@eq.edu.au to let her know that your child would like to audition.

As there are limited spots available in the Cheerleading Squad, anyone who auditions and does not make this team will have a spot on the Cheer Reserves (Pups) team.

Here's some information to help you decide which team your child would like to try out for.

Squad – anyone selected for this team MUST attend cheer practises on Monday and Thursday afternoons 3-5pm. They learn two competing routines - cheer and pom. Routines include tumbling, stunts, lifts, balances and dancing. This team performs at competitions on weekends in Terms 3 and 4. Parents must pay the competition entry fees, costing approximately \$300-350.

Pups (Reserves) – this team practises on a Monday morning 7.45-8.30am. The focus is on learning a variety of cheer and dance skills. They will learn a dance routine created just for the Cheer Reserves. Students must attend every week.

If the opportunity arises, this team may do free public performances.

If you have any questions about cheerleading or the auditions, please contact me on kroge8@eq.edu.au.
